To whomsoever it may concern

**Re: HeyMath!**

We, through our co-operative Educare, have been formally working with Sankhyaa Ltd to promote HeyMath! across all secondary schools in Singapore since Nov 2004. HeyMath! is one of the leading E-Learning Systems for Secondary School Mathematics in Singapore and we have been happy to grant our endorsement as the system has already been extensively evaluated by our members at different schools, with very positive feedback on content quality and value that it provides teachers and students.

Sincerely,

Mike Thiruman  
President  
Singapore Teachers' Union
